

**Heritage Saskatchewan Board Meeting  
Synopsis  
May 28, 2026**

Heritage Saskatchewan's Board met on May 28th. In addition to our regular board business reports and monitoring, the Board reviewed and approved the updated Risk Register and engaged in good discussion concerning risk in general. This included the Board's appetite for risk in relation to the organization's key risk areas of governance, reputation, strategic, and operations. Through this process, the Board is better able to identify, evaluate and mitigate risk as much as possible and ensure that our policies and procedures adequately address and protect the organization as much as possible.

Jennifer Fitzpatrick, President
